Fire Proof Bag

MODEL	FIRE PROOF BAG
Material	Fire Resistant Fibreglass
Size	28cm x 38cm
Temp	Tested to 800 °C
PART NO	DNC-0318

The fire proof bag is an economical alternative to a fire safe or fire cabinet. Made of materials that have been tested to a high temperature of 800 °C, its key advantage is mobility.

In the event of a fire, just grab and go.

Water resistant as well, the bag is capable of being heavily abused.

Information

Useful for keeping your precious documents safe in the event of a fire.
