

# HERCULES

## 2 Litre Foam Fire Extinguisher

For the year of 2019, statistics from SCDF indicated that there were 354 cases of kitchen fires - almost one kitchen fire each day. Over the years, the most common reason for not getting a fire extinguisher is because it is too bulky. Today, that changes.

Coming from Italy, the Hercules 2 Litre foam fire extinguisher is the lightest and most powerful fire extinguisher of its class - Capable of fighting Class A, B and F fires.

Comes with Bracket.

## 25% Lighter. Rust free. Beautiful Aluminium.

One single sheet of aluminum is deep drawn to create the seamless body of the fire extinguisher. A feat of engineering, this means no welding is required and that there is no possible point of leakage from the body.

## Not just lighter, but Powerful & Clean.

Using one of the best fire fighting foams, this fire extinguisher is not just the lightest of its class but the most formidable one as well. After putting out the fire, just wipe away with a cloth. Minimal clean up is required.

A comparison of weight (Smaller is better)

Hercules 2L Foam Fire Extinguisher  2.55KG  
Standard 2KG ABC Fire Extinguisher  3.4KG

A comparison of the size of fire that can be put out (Larger is better)

Hercules 2L Foam Fire Extinguisher  70B 1670mm Ø Fire  
2L Water Mist Fire Extinguisher  21B 920mm Ø Fire
