

# HERCULES

## 9L

### Lithium Battery Fire Extinguisher

MODEL	9L
Capacity	9L
Extinguishing Agent	Lithium Battery Fire Fighting Agent
Propellant	Nitrogen
Operation Method	Stored Pressure
Test Standard	SS EN3 Class A
Body Diameter	170 MM
Total Height	672 MM
Total Weight	15.0 KG
Discharge Time	180s
Discharge Range	1.5 - 2.0m
Operating Temperature	+5°C to 60°C
Working Pressure	15 Bar
PART NO	CONTACT US

#### Information

Lithium battery fires cannot be put out with normal fire extinguishers. Any such attempt will put the operator in grave danger and will only cause the fire to grow larger.

The Hercules Lith Ex fire extinguisher was made to combat these fires. Tested to rigorous EN3 standards, these are the only fire extinguishers you can rely on when a lithium battery fire occurs.

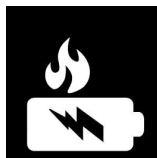

As there are no battery fire test standards in EN. The fire extinguisher itself has been tested to class A fires.

#### Safety Note:

Lithium battery fires give off highly toxic fumes.

#### Instructions for use

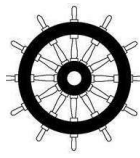

1. Read instructions before using to ensure that you have selected the correct fire extinguisher for the fire you intend to fight.
2. **P**ull out safety pin.
3. **A**im.
4. **S**queeze handle.
5. **S**weep **very gently**.
